

**Zinc Air Alkaline**  
**Model: 4LR25 / 6V-130Wh**

**main features**

ZINC AIR ALKALINE is the ideal technology for those low power applications that require continuous energy operating over a long period of time without maintenance or supervision. It is the only one that guarantees a battery life of at least two years without any maintenance. The technology with the highest energy density. A Zinc-Air-Alkaline battery from Camelion delivers significantly more energy than a total of 4x ordinary 4R25 batteries combined. Also ideal for very unfavorable weather fluctuations.

**specifications**

- **int. Size according to IEC**.....6/25
- **size**.....6V block
- **electrochemical system**.....Zinc Air Alkaline
- **rated capacity**.....25Ah
- **weight (g)**.....665.5
- **Rated Voltage (V)**.....6.0
- **sheathing**.....PVC
- **Dimensions (LxWxH mm)**.....98.5/110x66x6
- **Customs tariff number**.....85066000
- **price**:.....€/pc.

Subject to technical and logistical changes.

Packaging	Bulk	carton
